

EMR Aware

Electromagnetic Radiation - Concerns and Informed Choices

[View Latest Newsletter](#)

[Our Newsletters](#) | [Scientific Evidence](#) | [Reducing EMR](#) |
[Measuring EMR](#) | [Networking and Support](#)

Newsletter May - June 2016

This free occasional newsletter is published by EMR Aware, a group of concerned citizens based in Northern NSW Australia. It is intended to help provide up-to-date information on the health, environmental and social impacts of modern electro-technologies. This is done in the public interest to assist a fair and balanced discussion of the topics at hand. Particular attention is given to content that may not

otherwise be made available or openly acknowledged by industry and their government regulators.

We invite readers to consider the scientific evidence and trending opinion on this page and throughout prior editions of our newsletter. There seems little doubt a tobacco-style cover-up of the adverse effects of EMR is underway by those reliant upon its profitability or surveillance potential. You can help redress this situation by forwarding the link to this web page to as many interested persons and organisations as possible. Anyone wishing to receive our newsletter regularly may do so by sending an [email](#) with the word "subscribe". Thank you for visiting.

Phone Tower Complaint - Legal Action

Residents of New Farm QLD are opposing plans to install a mobile phone tower near homes and a school. Louise Brosnan, a diagnosed EHS sufferer, has engaged Barrister Ray Broomhall to lodge a Criminal Complaint based upon the Peace and Good Behaviour Act and the legal definition of "assault". The latter includes exposure to "electrical force", or even the threat to do so. The Telco has been summoned to appear in court on 16 June. If this action is successful, a restraining order may be issued, thus establishing a valuable precedent. The following link provides further information from Louise on the case, as well as contact details for those wishing to offer support. <https://app.box.com/s/sv3a4q7pi77dzrtxg3ekbn4dmp26ppm>

New York PTA Calls For Wi-Fi To Be Turned Off: Major Wi-Fi Controversy as School District Is Served With Legal Liability Notice. http://safetechforschoolsmaryland.blogspot.com.au/2016/04/new-york-pta-calls-for-wi-fi-to-be.html?utm_source=feedburner&utm_medium=email&utm_campaign=Feed:+SafeTechForSchoolsMaryland+%28Safe+Tech+for+Schools+Maryland%29

The above Notice states:

- Board members who voted for keeping the Wi-Fi are now personally liable if a child is harmed by the wireless radiation exposures.
- They could be sued for "willful blindness", "child

negligence" or possibly even charged with "reckless endangerment of a child", of which the latter carries criminal penalties.

- The BOE is held liable for violating "Open Government Law," by misusing "Executive Session" option designed to keep public agencies' court strategies private when litigation is in process. The Board apparently disbanded the Wi-Fi Task Force and denied access of the minutes of that meeting to the public. The BOE then stated "the efficacy of the group" was the reason for disbanding it.

Wi-Fi in Schools Is Not Safe - Sept 21 MCPS BOE Meeting. <https://www.youtube.com/watch?v=vj1UZgmXtIU&list=PL2TxgdaZ0lgAzCEhDOXmchknb1nmF06-s&index=7>

Symptoms After Exposure to Smart Meter Radiation. <https://www.scribd.com/doc/289777267/Symptoms-after-Exposure-to-Smart-Meter-Radiation>

Smart meters transmit over a wider frequency range, and more continuously, than we are led to believe.

Smart meters typically emit three frequencies
1) 902-928MHz for data transmission, 2)
2.5GHz for the Zigbee home area, smart
appliance networking, and 3) 130KHz from their
inbuilt switch-mode power supply. Assessment
of Radio Frequency/Microwave Radiation

Note: EMR Aware does not endorse the terms "Electro-hypersensitivity" or "EHS".

They incorrectly imply that the adverse biological effects of EMR are confined to an abnormal segment of the population. This has several prejudicial consequences. By definition, EHS personalises the disorder instead of treating it as the result of environmental toxicity. Sufferers may thus be conveniently denied a reasonable expectation of health. Additional to this, legal remedies such as "private nuisance" are untenable when the Claimant is deemed to be unusually sensitive.

There is also a campaign in motion to classify EHS sufferers as self-deluded or mentally incompetent. The following is from an affidavit by a 76 year old woman who alleges she was forceably sedated in a major Australian hospital after declaring she was EHS and expressing a wish to leave.

13. My Medic Alert bracelet also has "EHS" printed on it to indicate this diagnosed condition. Refer Appendix A.

14. I then stated to the doctor that the EMR being emitted from the fluorescent lights above my head was causing me excruciating pain, and that I would have to vacate the building.

15. After departing the Triage area, I walked some 15 meters away from where Nurse #1 was seated towards the main entrance, when I was suddenly attacked from behind by two male nurses whom I refer to as Nurse #2 and Nurse #3.

16. Nurse #2 grabbed my right arm rather viciously in his attempt to restrain my exit that eventually caused severe bruising to occur, which has remained apparent 10 days later, so far.

17. Nurse #3 grabbed my left elbow and wrist and twisted my arm so I thought it was going to come out of the shoulder socket. I glared at him and he stopped twisting. I screamed out "NO!!" - being fearful that the pressure he was placing upon my elbow would break it. He did not respond to my cries for him to ease his grip on my arm. I did try to resist by trying to hold myself against the wall but my cries had no effect. There were 9 witnesses of this. This twisting has caused severe

pain to exist in an area covering my left shoulder to my chest ever since together with a bruised arm. Refer to the photograph in Appendix B.

18. Nurse #2 and Nurse #3 escorted me back to the doctor's location where I was placed in a chair under the fluorescent lights. I again tried to leave the building after stating that I could no longer take the radiation, and I was leaving. After rising from the chair I was then restrained into a gurney by hospital staff securing both of my arms and legs to it. Upwards of 9 nursing staff witnessed these events.

19. The doctor then informed me I was being placed under the Mental Health Act and was not permitted to leave.

Does this publication provide sufficient justification for such treatment by staff? MHCC Mental Health Rights Manual. <http://mhrm.mhcc.org.au/chapter-4/4c.aspx>

Every Australian State, as well as the UN, has in force a charter of basic human rights. http://www.austlii.edu.au/au/legis/vic/consol_act/cohrara2006433/

Safety Standards

Regulations, Bans and Warnings

ICNIRP Did It Again. [https://
betweenrockandhardplace.wordpress.com/
2016/04/04/icnirp-did-it-again/](https://betweenrockandhardplace.wordpress.com/2016/04/04/icnirp-did-it-again/)

A coincidence or a conspiracy? According to one account, all members of the outgoing and the incoming Main Commission of ICNIRP share the same opinions:

- RF-EMF does not cause any adverse health effects
- Individual sensitivity to RF-EMF does not exist
- The only mechanism of RF-EMF effects is thermal
- The non-thermal effects do not exist

The following proposed safety limits are 10,000 times more stringent than in Australia and other countries that adopt the ICNIRP standard.

Argentina Seeks a National Law Against Electropollution. (Spanish - use Google Translate). [http://www.nuevocronista.com/

International Policy Actions on Wireless. <http://ehtrust.org/policy/international-policy-actions-on-wireless/>

We Are EMR Guinea Pigs. <https://www.youtube.com/watch?v=xX-mdciSUC0>

According to Merrim-Webster Dictionary, one definition of an EXPERIMENT is "a tentative procedure or policy." Industry and regulatory agencies routinely invoke the disclaimer that their assurances of EMR safety are subject to ongoing investigation. There are international laws banning human experimentation which stem from Nazi abuses during WW II. The Nuremberg Code: Ethical Principles & Guidelines for Research Involving Human Subjects. <http://www.hhs.gov/ohrp/regulations-and-policy/belmont-report/>

Imprecise Safety Standards

Legislated EMR exposure limits are based primarily upon field intensity. As exemplified by the two papers below, this may not adequately account for bio-effects that are frequency, wave form or pulse width specific, not to mention the synergistic effects of multiple signals.

Token Science?

Industry funded studies typically show fewer harmful effects.

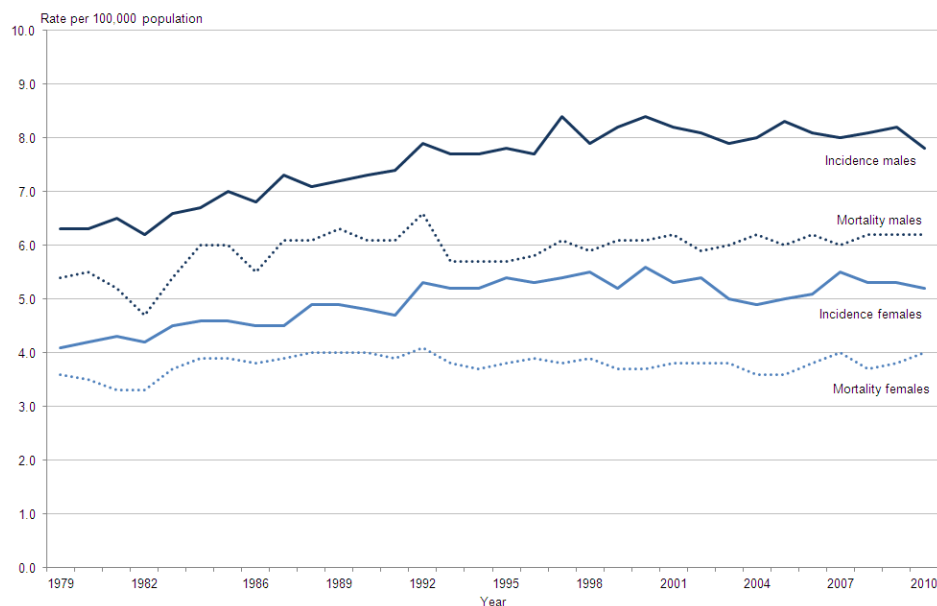

This paper by Prof. Simon Chapman et al seems to be an example of research tailored to fit a foregone conclusion. As per the comments below, the impartiality of the methods and supportive text are questionable. Nonetheless, the admitted rise in cancer among 70-84 olds is revealing, particularly when taking into account a 20-30 year latency period. Has the Incidence

of Brain Cancer Risen in Australia Since the Introduction of Mobile Phones 29 Years Ago?

<http://www.cancerepidemiology.net/article/S1877-7821%2816%2930050-9/abstract>

Joel Moskowitz Comments in Medscape on Simon Chapman's Study. <http://www.emfacts.com/2016/05/joel-moskowitz-comments-on-simon-chapmans-mobile-phone-all-clear-study/>

Dariusz Leszczynski on Simon Chapman's Mobile Phone 'All Clear Study. <http://www.emfacts.com/2016/05/dariusz-leszczynski-on-simon-chapmans-mobile-phone-all-clear-study/>

Contrary to Prof. Chapman's findings, British Cancer Registry statistics show brain cancers increased by a quarter since 1979. <http://webarchive.nationalarchives.gov.uk/20160105160709/http://www.ons.gov.uk/ons/>

rel/vsob1/cancer-statistics-registrations--england--series-mb1-/no--41--2010/sty-brain-cancer-awareness.html

Prof. Rodney Croft of the University of Wollongong NSW is a promoter of the [nocebo](#) explanation for EHS. Since 2004, according to the disclosure below, the [NHMRC](#) funded Prof. Croft to the tune of over 6.5 million. The NHMRC is provided with \$700K annually by the ACMA for investigation into the health effects of radiofrequency. Since Prof. Croft's notable expertise is psychology, one is left wondering if the biological impacts of EMR are being tacitly overlooked. It appears he obtained a further \$640,000 in research grants from industry groups such as the Geneva-based Mobile Phone Manufacturers Forum. In 2015 the NHMRC received 181 EMR-related funding applications, and rejected all of them. <http://socialsciences.uow.edu.au/psychology/research/bbri/researchgrants/index.html>

The following article exhibits many of the opinion shaping tactics employed by industry to lull consumers into acceptance of potentially unsafe and addictive technology. Do Cell Phones Cause Cancer? Admit It: You Couldn't Give Yours Up If They Did. <http://www.digitaltrends.com/mobile/we-dont-care-if-phones-cause-cancer/>

"It is easier to fool people than convince

them they have been fooled." - Mark Tawin
